Occupation: M.E.P. Assistant Manager Site.

Date of Birth: 9-3-1960

Language: Arabic, English and Italian Language

Experiences:

- **2015-2016:** Private office for engineering services and solar energy and control P.M.S – P.L.C Power.
- **2013-2014:** Private works contractor – solar energy and electricity of private companies and electricity consultations and air-conditioning together with operating air-conditioners with solar energy.
- **2012:** Sub-contractor of free business – summer resorts – electricity and air-conditioning.
- **2011:** (ABB) Company – Free business, electricity and control works. 
- **2010:** Qatar – private works – Contracting Company M.E.P.
- **2008-2009:** Qatar (El Doha) – Site Vice President – M.E.P. – El Gaber for Constructional Engineering Company.
 - Qatar Aluminum Project – Expansion of El Doha Water Station.
- **2006-2008:** United Arab Emirates (Dubai – Abu Dhabi): Treating electricity works that included public Authority Site – Lighting – and controlling its transmission, security systems and construction – Managing systems – (P.L.C) (BMS) – fire alarm – telephone. I Work as coordinator during the execution of central ai – conditioners M.E.P., operating and delivery and maintenance.
- **2005-2006:** Conferences Building – Sharm El Sheikh – Dafous – M.E.P.
- **1999-2004:** (ABB) Canadian Embassy: New building – Garden City Cairo.
 - Bahgat Group Hotels – sixth of October – Cairo.
 - Barka Water Treatment Station - tourism. 
 - Health Club (P.M.S): Establishing a management system and H.V.A.C.
 - Ministry of interior Attaché – Building 515 – P.M.S. – power – H.V.A.C.
 - Railway lines development project with Italian and German group CTC.

- **1991-1999: (Nile Astar)** Concord Hotel Project – 24 floors – M.E.P. power.
 - Summer Resorts at Sharm El Sheikh (Ramo) and El Sheikh Coast.
 - Electro-mechanics M.E.P.
 - American Embassy – Cairo – Building NO. 2 (M.E.P.)
 - Grand Hotel consists of 400 Central Control mechanical rooms – B.M.S. Electro-mechanics (M.E.P.)
- **1983-1990: Italian Company** – Senam Petrol (Iraq)
 - Project 70 cars injection station all over Iraq.
 - Iraq oil Refiner: installation and operation.
 - Establishing towers at Baghdad : Babel hotel – Ishtar.
- **Other Skills:**

Specialized in engineering drawings, the projects expenses, and final auditing with operation, maintenance and involving and operating solar energy works.
- **Previous Experiences:**
 - Supply, installation, and maintenance of systems and electric products and renewable energy by is requests by control C.T.C.- P.L.C. – B.M.S. – power.
 - Design, supply, installation and maintenance of control boards – operation and maintenance of surface water pumps – drift – fire – water desalination – operating air-conditioners H.V.A.C - Vaccum pump - M.E.P. – P.L.C. and Power.
 - Compressors – developing, innovating and solutions for power failure U.P.S. – electricity – solar energy, electro-mechanics and control – C.T.C/B.M.S/P.L.C – control boards and AC/DC (Alternative current / Direct current) solar energy – M.E.P and providing electricity.
